📍 #211 Looban St. ,Santa Cruz Maragul, Mexico,
Pampanga

Profile

Dedicated computer engineering student with comprehensive knowledge of team management and daily operations oversight. Ensures smooth workflow, maintains safety standards, and supports staff development. Adept at problem-solving, resource allocation, and maintaining optimal productivity levels.

Education

2021 – present **BS Computer Engineering**
Angeles City, *Holy Angel University*
Philippines

2018 – 2020 **High School Diploma**
City of San Fernando, *Pampanga High School*
Pampanga, Philippines

Skills

Communication Skill

Problem Solving

Hardware Maintenance and Troubleshooting

Technical Support Proficiency

Computer Programming

Eagerness to learn

C++
Arduino
Javascript
React
Bootstrap

Organisations

06/2023 – present **Institute of Computer Engineers of the Philippines**
Member

Certificates

NetAcad Cyber Threat Management

Feb 2025
*Holy Angel University-School of Engineering and
Architecture*

Courses

02/2025 **Cybersecurity Essentials-Incident Response**
Holy Angel University-School of Engineering and Architecture

02/2025 **Cybersecurity Essentials- Vulnerability Assessment and Risk Management**
Holy Angel University-School of Engineering and Architecture

Projects

Battlebots

3rd Year, Team of 6

- Created a robot that is competitive enough to disrupt other robots in the arena. It is also a showcase of team collaboration and problem solving skills during the building process.

E-Commerce Web App

Second Year, Team of 6, ReactJS, Bootstrap, Javascript

- Collaborated on a multi page e-commerce web app with product listing, checkout and cart features
- Contributed to the front-end development via Bootstrap for responsive layout and design
- Helped with component architecture via ReactJS
- Exposed to version control and project deployment
